CLAIM PROVISIONS

PROOF OF CLAIM

However, if a Covered Person's coverage terminates for any reason, written proof of claim satisfactory to OTIP and/or the Insurer must be received not later than 90 days following the date of termination.

For Health and Dental Coverages

Written proof of claim satisfactory to the Insurer must be received by OTIP and/or the Insurer no later than the end of the calendar year following the year in which the claim was incurred. However, if a Covered Person's coverage terminates for any reason, written proof of claim satisfactory to the Insurer must be received by OTIP and/or the Insurer no later than 90 days following the date of termination.

In addition to written proof of claim, the Insurer may require you to submit:

- information from the Covered Person's Physician in order to determine whether an Eligible Expense under the Extended Health Care Coverage is Medically Necessary;
- information from the Covered Person's Dentist which the Insurer considers necessary to adjudicate a claim, such as a description of the treatment rendered (i.e., an expertise letter) and/or relevant x-rays.

Claims must be sent to the address indicated below:

OTIP Health/Dental Claims
125 Northfield Drive West
P.O. Box 218
Waterloo, Ont. N2J 3Z9

PAYMENT OF CLAIMS

If written proof of claim satisfactory to the Insurer is provided:

Claim payments will be made directly to the provider of the care, service or supply if that provider has an agreement with the Insurer or a written request has been received from you to pay the provider directly; and any other claim payments will be made to you. (Claim payments cannot be made directly to a Dependent.)

If any Eligible Expenses under the Extended Health Care Coverage require advance approval by the Insurer, the Covered Person must submit a pre-authorization form completed by his or her attending Physician before the expenses will be reimbursed. The Insurer will notify the Covered Person of the benefit payable under this Benefit Plan.

A claim for an eligible dental expense or an eligible dental accident expense will be considered incurred on the date of completion of the care or services. All other Eligible Expenses will be considered incurred as of the date the service or supply is received or, if earlier, the date the Covered Person incurred an obligation with the provider for the service or supply. However, no benefit will be payable before the date the Covered Person receives the service or supply.

If you die before receiving payment for an incurred Eligible Expense, payment will be made to any person and/or corporation appearing to the Insurer to be entitled to payment, where such payment is permissible under applicable law. The Insurer fully discharges its liability by making such payments.

ASSIGNMENT

You may assign the payment of Eligible Expenses to the provider of the care, service or supply when that provider has an agreement with the Insurer, unless otherwise stated in the "Payment of Claims" provision. However, the Insurer reserves the right to cancel assignment privileges or reinstate any such privileges at any time.

CO-ORDINATING COVERAGE GUIDELINES FOR OUT-OF-COUNTRY/PROVINCE HEALTH CARE EXPENSES (Applicable to Extended Health Care and Deluxe Travel Coverages)

If a person who is covered under this Benefit Plan is also covered under another plan which provides similar coverage (such as employment-related group contracts, individual or group travel or health care contracts, credit card coverages or any other private insurance sources), any claim for Eligible Expenses incurred outside the province of residence or outside Canada will be co-ordinated with the other plan(s) in accordance with the Co-ordinating Coverage Guidelines for Out-of-Country/Province Health Care Expenses as outlined by the Canadian Life and Health Insurance Association Inc. Any information that is required by the Insurer to co-ordinate coverage in accordance with these guidelines must be supplied by you upon request.

The Insurer may obtain from or release to any person or corporation, any information considered necessary to satisfy the intent of this provision and facilitate payment of benefits under this Benefit Plan.

CO-ORDINATION OF BENEFITS (Applicable to Extended Health Care and Dental Care Coverages)

If a person who is covered under this Benefit Plan is also covered under any other Plan, any claim under this Benefit Plan will be co-ordinated so that the total amount payable from all Plans does not exceed 100% of the Eligible Expenses incurred.

The Insurer may obtain from or release to any person or corporation, any information considered necessary to satisfy the intent of this Co-ordination of Benefits provision and facilitate payment of benefits under this Benefit Plan.

If a Covered Person is eligible to receive a benefit under this Benefit Plan and the same or similar benefits under any other Plan, payment will be determined as follows:

If the other Plan does not contain a Co-ordination of Benefits provision, that Plan will pay its benefits before a Plan which does contain that provision.

If the other Plan contains a Co-ordination of Benefits provision, priority will be given to the Plans in the following order:

- The Plan where the person is covered as a member. However, if a person is a member of two Plans, priority will be given to the Plans in the following order:
 - the Plan where the member is an active full-time employee;
 - the Plan where the member is an active part-time employee;
 - the Plan where the member is a retiree.
- The Plan where the person is covered as a Dependent Spouse or Dependent Child. However, if the person is covered as a Dependent Child under two or more Plans, priority will be given to the Plans in the following order:
 - the Plan of the member with the earlier day and month of birth in the calendar year;
 - the Plan of the member whose first name begins with the earlier letter in the alphabet, if the parents have the same date of birth.

In the case where the parents are separated or divorced, the order indicated above will not apply. In that case, priority will be given to the Plans in the following order:

- the Plan of the parent with custody of the Child;
 - the Plan of the Spouse of the parent with custody of the Child;
 - the Plan of the parent not having custody of the Child;
 - the Plan of the Spouse of the parent not having custody of the Child.
- For dental accidents, health Plans with dental accident coverage determine their benefits before dental Plans.

If priority cannot be established using these guidelines, the benefits will be pro-rated among the Plans in proportion to the amounts which would have been paid under each Plan had there been coverage under just that Plan.

This provision also applies to a person who is covered under this Benefit Plan as both an Employee and a Dependent, in the same way as if coverage was being co-ordinated with another Plan.

In order to apply the Co-ordination of Benefits provision correctly in the case where the Insurer is not the first payer, a copy of the original receipt or claim form must be submitted with the explanation of benefits provided by the other Plan.

RECOVERING OVERPAYMENTS

The Insurer has the right to recover any overpayment of benefits from the person or organization who received the overpayment. If the overpayment cannot be recovered directly, the Insurer has the right to reduce future benefit payments to that person until the overpayment has been recovered in full.

THIRD PARTY CLAIM RECOVERY

If you have a legal claim against a third party for causing your sickness or injury and if the Insurer provides payments or benefits under this Contract as a result of that sickness or injury, the Insurer will have the right to recover the amount it paid from that third party. The Insurer may also initiate legal action in your name in order to enforce that right. Any release from liability which you sign prior to experiencing a loss related to that sickness or injury will not affect your right, or the Insurer's right, to pursue the legal claim, when there is no law preventing pursuit of that claim.

The Insurer may release to or obtain from any insurance company, organization or individual, any information which it considers necessary to enforce this provision. This information may be shared without your consent, unless your consent is required by law.

The Insurer has the right to make any payments which it considers necessary to satisfy the requirements of this provision. Any payment the Insurer makes will be considered to be a benefit paid and will satisfy the Insurer's obligation to the extent of that payment.

When the net amount recovered, after deducting the cost of recovery, does not cover complete reimbursement of the loss or damages, the amount recovered will be divided between the Insurer and you according to the portion of the loss which each party has assumed.

LEGAL ACTION

No legal action for the recovery of any claim may be brought against the Insurer until 60 days have elapsed from the date written proof of loss has been furnished to the Insurer. Any such action must be brought within one year after filing written proof of loss.

RIGHTS OF THE INSURER AND THE CLAIMANT

You may select any Physician, other than yourself or an immediate family member, as your attending Physician. If coverage under this Benefit Plan requires treatment by a duly qualified specialist for a particular claim, you may select any such specialist to be your attending Physician.

However, the Insurer will have the right and opportunity, at its own expense, to have a Covered Person examined by one or more Physicians designated by the Insurer when that person's injury or sickness is the basis of a claim. These examinations will be conducted when and as often as the Insurer may reasonably require during the time that a claim for that person is pending under this Benefit Plan.

CONVERTING GROUP COVERAGE TO AN INDIVIDUAL INSURANCE POLICY

When a Coverage includes a Conversion Option and the Covered Person meets the requirements for eligibility to convert the coverage as specified in that Conversion Option, the following terms and conditions will apply:

In order to apply for an individual plan of health care or dental care coverage, the person must submit a written application and the required premium to the Insurer within 60 days of the date the group coverage is terminated. The individual plan will be exchanged for all Coverage on the person under this Benefit Plan. The coverage under the individual plan will not duplicate the coverage under this Benefit Plan and is subject to the terms and conditions of the individual plan being offered at the time.

MEDICAL AIDS, APPLIANCES AND SUPPLIES

Charges for the following medical aids, appliances and supplies will be eligible when required for therapeutic use. However, the Insurer reserves the right to provide benefits based on the least costly alternative which would produce a professionally adequate result, consistent with accepted standards. In addition, if the rental charges for any covered item would exceed the purchase price, based on the attending Physician's prognosis and the estimated duration of the item's use, the Insurer will pay benefits for the purchase of that item rather than its rental. If a covered item is initially rented and later purchased, the Insurer will deduct any rental charges previously reimbursed from the amount payable for the item's purchase. In no event will the Insurer pay rental charges which exceed the purchase price of the item.

If a Covered Person incurs expenses for medical aids, appliances or supplies outside his or her province of residence, the Insurer will not pay an amount that is greater than it would pay for such expenses when incurred in the province of residence.

- Crutches, cane, standard-type walker.
- Compressor, nebulizer, infant apnea monitor, aerochamber.
- Oxygen and equipment necessary for its administration.

 - a standard-type manual wheelchair.
- Electric Hospital beds, wheelchairs and scooters are excluded unless Medically Necessary and recommended in writing by the attending Physician.
- Repairs to a Hospital bed, wheelchair or scooter when required as a result of normal wear and tear, excluding the cost of replacement batteries.

HEARING AIDS

Charges incurred by a Covered Person for hearing aids prescribed by a Duly Licensed audiologist, otolaryngologist, otologist or Physician, as well as repairs and initial batteries, will be covered up to the maximum shown in the Summary of Coverages.

Benefits are not payable for:

- Hearing tests;
- Replacement batteries.

EYE EXAMINATION

Benefits are not payable for:

- Safety glasses, whether prescribed or not;

DENTAL ACCIDENT COVERAGE

Dental care provided by a Dentist to repair or replace Natural Teeth damaged as a result of a direct accidental blow to the mouth (and not by an object intentionally placed in the mouth) which occurs while a Covered Person was covered under the Extended Health Care Coverage.

Benefits will be based on the monetary rates set out in the Dental Association Suggested Fee Guide for General Practitioners in effect in the Covered Person's province of residence on the date of treatment.

A Dental Accident Report Form should be used to report the details of the accident. This form is available from O'TIP and/or the Insurer upon request.

Treatment must begin within 90 days following the date of the accident and must be completed within one year from the date of the accident. However, if the Covered Person is under age 18 at the time of the accident, treatment must be completed before his or her attainment of age 19.

Implants and implant-related or supported services will not be covered.

Pre-determination of Dental Accident Benefits

A treatment plan should be prepared by the Covered Person's Dentist and submitted to the Insurer for approval **before** the dental work begins unless emergency treatment is immediately required to alleviate pain. The treatment plan should contain details of the accident, the pre-accident condition of the teeth involved and the planned treatment, including cost estimate and relevant x-rays. The Insurer will review the treatment plan and advise the Covered Person of the amount payable under this Coverage.

Where a range of fees, individual consideration or laboratory charges are included, the Insurer will determine the amount payable.

Alternate Benefit Provision

There are many ways to treat a particular dental problem or condition and the cost of different procedures, services, courses of treatment and materials may vary considerably. The Insurer may determine that a less expensive procedure than that suggested by the Dentist will provide a professionally adequate result which is consistent with accepted standards of dental practice and may base benefits on that procedure. The difference between the amount payable by the Insurer and the Dentist's charge is the Covered Person's responsibility.

EXCLUSIONS

The Insurer will not pay benefits for expenses incurred for or in connection with:

- Care, services or supplies which are not Medically Necessary, as determined by the Insurer.
- Care, services or supplies which are primarily for cosmetic purposes, except those which are related to reconstructive surgery required to repair or replace tissue damaged by disease or bodily injury.

However, subject to prior written approval by the Insurer, this exclusion will not apply if the replacement is required as a result of a pathological change or because the existing appliance or device can no longer be made serviceable due to normal wear and tear.
- Self-inflicted injury.
- Committing, or attempting to commit, a criminal act under legislation in the jurisdiction where the act was attempted or committed.
- Completion of claim forms or other documentation, transfer of medical files or failing to keep a scheduled appointment.
- Drugs, injectables, supplies or appliances which are experimental or which are not approved by the Health Protection Branch of Health & Welfare Canada for use in Canada.

- The Insurer will make benefit payments, based on Reasonable and Customary Charges as determined by the Insurer, after receipt and evaluation of satisfactory claim information. DENTAL CARE COVERAGE

FOR YOU AND YOUR DEPENDENTS

DEFINITIONS

The following definition applies exclusively within the description of this Coverage:

Eligible Expense means the charge actually made for a service or supply which is included in the List of Eligible Dental Services made a part of this coverage, provided the charge does not exceed the amount specified in the applicable fee guide described in the Summary of Coverages.

PAYMENT OF BENEFITS

If a Covered Person incurs Eligible Expenses on or after the effective date of coverage, the Insurer will reimburse you according to the Reimbursement Percentage outlined in the Summary of Coverages, provided such Eligible Expenses are:

- for services or supplies specified in the List of Eligible Dental Services for Dental Care Coverage;
- for services or supplies provided or ordered by a Dentist (When services provided by a Denturist are covered, the services may also be rendered by a Duly Licensed Denturist);
- in excess of any applicable deductible shown in the Summary of Coverages; and
- not in excess of
 - any maximum amount specified in the applicable fee guide described in the Summary of Coverages; or
 - Reasonable and Customary Charges, as determined by the Insurer, for expenses not included in the applicable fee guide described in the Summary of Coverages.

The Reimbursement Percentage, deductible, applicable fee guide and maximums are described in the Summary of Coverages.

If a Covered Person incurs expenses outside his or her province of residence, the Insurer will not pay an amount which is greater than it would pay for such expenses when incurred in the province of residence.

Pre-determination of Benefits

Where a course of treatment is expected to cost more than \$500, a treatment plan should be prepared by the Covered Person's Dentist/Denturist and submitted to the Insurer for approval **before** the dental treatment begins. The treatment plan should outline the proposed procedures and itemized charges and include relevant x-rays. The Insurer will review the treatment plan and advise the Covered Person of the amount payable under this Coverage. Once the treatment plan is approved, the treatment must be completed within 12 months.

Where a range of fees, individual consideration or laboratory charges are included, the Insurer will determine the amount payable.

Any pre-determination of benefits obtained from the Insurer will only contain information related to the allowable benefits under this coverage. It does not entitle a Covered Person to benefits where individual maximums or frequency limitations have been exceeded.

Alternate Benefit Provision

There are many ways to treat a particular dental problem or condition and the cost of different procedures, services, courses of treatment and materials may vary considerably. The Insurer may determine that a less expensive procedure than that suggested by the Dentist/Denturist will provide a professionally adequate result which is consistent with accepted standards of dental practice, and may base benefits on that procedure. The difference between the amount payable by the Insurer and the Dentist's charge is the Covered Person's responsibility.

Late Entrants Provision

If you apply for Dental Care Coverage more than 31 days after first becoming eligible to do so, coverage will be limited to \$150 per Covered Person during the first 12 months of coverage.
